- Microsoft SQL Server Management Studio
- Command Line Interface

WORK EXPERIENCE

Grimm Reaper IT

Web Developer

Mar. 2015 – Current

Phoenix, AZ

Responsible for redesigning legacy ecommerce websites and building out new sites using the latest technologies and design practices.

Notable tasks include...

- Redesigned and built over two dozen legacy ecommerce websites with a focus on mobile, performance and latest trends in design
- Transitioned .NET 4.5 projects to the latest .NET Core platform
- Expanded functionality of backend application including administration and ecommerce tools utilizing .NET 4.5 and ASP.NET

Recovery Innovations

Junior Software Developer

Mar. 2014 – Mar. 2015

Phoenix, AZ

Working with a small team, we supported existing and produced new software for record-keeping and billing purposes for a non-profit behavioral health company.

Notable tasks include...

- Refactored legacy LINQ code to speed up retrieval and display of data by minutes.
- Designed new method of validating records that greatly sped up the process from many minutes to seconds.
- Helped create a record-keeping web-based application for use on tablets for both online and offline use. Back end was created using C# and .NET while the front end used modern web design including JavaScript, HTML5 and CSS3

Ipro Tech, Inc

Tech Support Specialist

Aug. 2013 – Mar. 2014

Scottsdale, AZ

Provided technical support to customers for our litigation software. The position provided constant exposure to the software development process including working with developers to solve our client's problems.

Use of downtime allowed the creation of case study programs based on the needs of our clients and the limits of our current software release.
